

THE FIRST COMMUNITY DRIVEN DEFI TOKEN DEDICATED TO SATOSHI NAKAMOTO

WIERD FINANCE

June 24, 2021

Weird Finance Token is a memeDefi token Created by an anonymous Team, Dedicated to the Anonymity of Satoshi nakamoto and every anonymous Crypto Hero Worldwide.

The main ideology is to celebrate the anonumosity of Satoshi Nakamoto and every other anonymous persons who has sacrificed to scale the crypto currency eco-system.

Importantly, the architecture of Weird Finance ensures that liquidity is always available for the token. The liquidity pool is powered by a completely automated smart contract that provides a safety net for investors. It is for this reason that Weird Finance is regarded as a Rug-Proof project.

Introduction

As human beings we are usually first exposed to the gift economy of our families and tight knit communities: goods and services are provided without an explicit agreement for immediate or future rewards, but the exchange of love, kindness, and confidence. As the relationship circle is enlarged this mutual trust weakens, but the urge and willingness to cooperate does not diminish: this is when the need for an exchange economy arises. [Hayek Money: The Cryptocurrency Price Stability Solution] Cryptocurrency is a digital asset and becoming popular after the success of different crypto tokens in the market. The main technology behind the development and success of cryptocurrencies is blockchain technology. This modern technology work on the principle of decentralization. It provides better security, safety, and privacy. It reduces the risk of business and allows transparency with the key feature of decentralization. The memes Tokens gained fame in the 2021 bull market where currencies such as Dogecoin and Shiba inu hit market capitalization billions, turning thousands of small investors into millionaires in a matter of months. Turning into a real fever, accompanied by major marketing campaigns.

Blockchain Infrastructure

Blockchain Technology can enhance the basic services that are essential in traditional finance and it has the potential to become the foundation for decentralized business models, empowering entrepreneurs and innovators with all the right tools. By means of a trustless and distributed infrastructure, blockchain technology is optimizing transactional costs and allows the rise of decentralized, innovative, interoperable, borderless and transparent applications which facilitate open access and encourage permissionless innovations. Binance Smart Chain (BSC) is a blockchain that was developed as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than other, competing chains. With decentralized exchanges on BSC offering lightning-fast swaps and extremely low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (Defi). BSC uses a token protocol developed by the Binance Team called BEP-20.

Binance Smart Chain is unique for several reasons:

It's a sovereign blockchain, which will provide security and safety to all users and developers. Its native dual chain interoperability will allow cross-chain communication and scaling of high-performance dApps that require a fast and smooth user experience

It's EVM-compatible and will support all of the existing Ethereum toolings along with faster and cheaper transactions.

on-chain governance with Proof of Staked Authority consensus, built on 21 validators who validate the transactions, will provide decentralization and enable significant community involvement.

Community

Our main objective is to build a strong community, where people from all over the world can exchange experiences and debate issues of global interest, using WIERD FINANCE as a utility token. If a community is well maintained and constantly expanded, this can result in a trusting relationship between the target group and the WIERD FINANCE, which can lay the foundation for loyal and stable repeat users.

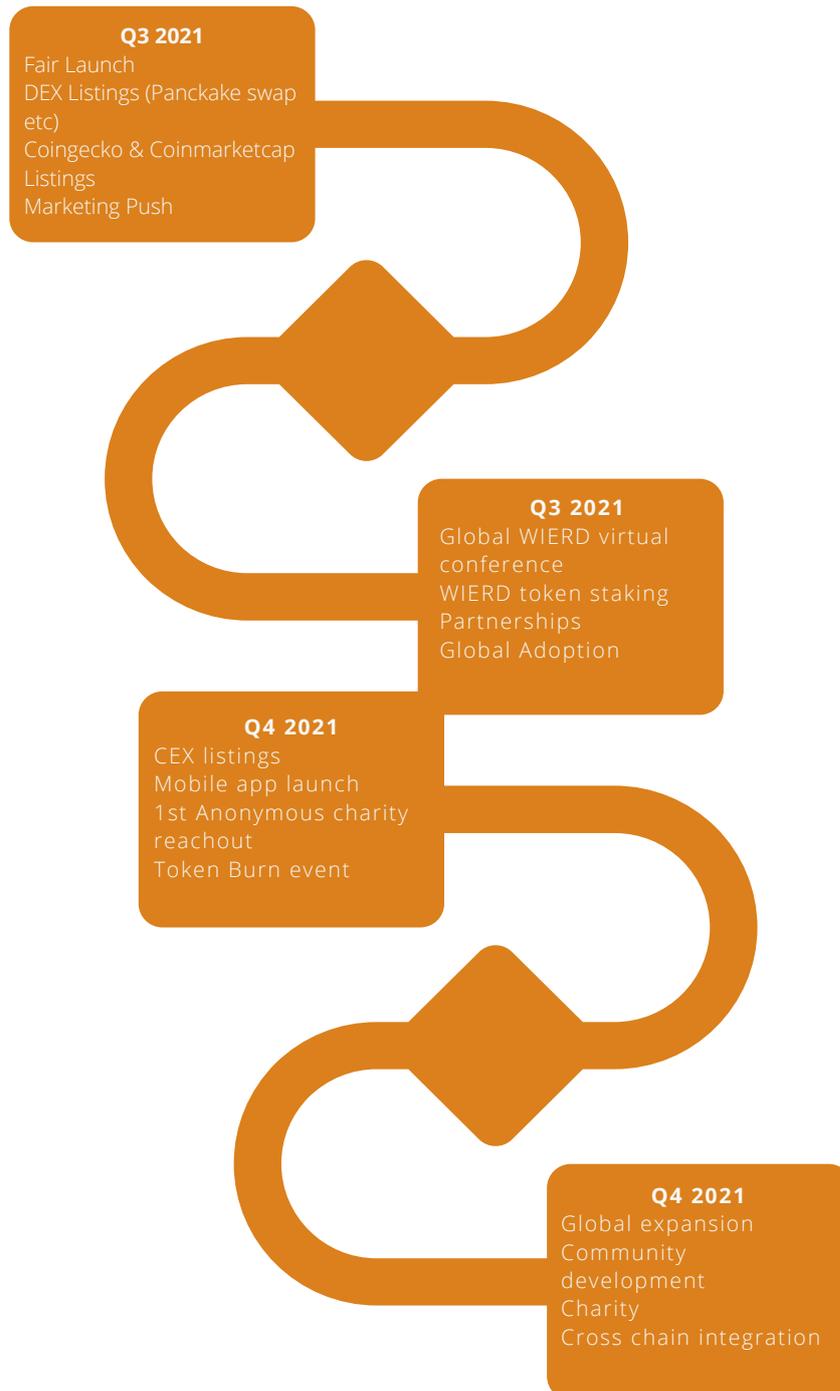

Dip Damage Protection

We have designed a Dip Damage Protection Mechanism Wallet where people from the community can contribute anything above \$10 in BNB (BEP20) to make the protection stronger, so no whales will be able to beat our protection, members will be able to see all the transactions on blockchain happening in the Dip Damage Protection wallet.
